02 SCOPE OF SERVICES

Project title

Revitalise — Grant Application Process Automation

What the Consultant will do

- ◆ **Platform foundation and governance** — Power Platform environments, security, permissions and governance that every automation runs on.
- ◆ **Electronic acceptance letters** — automated DocuSign acceptance letters with reminders and status tracking, replacing manual creation and sending.
- ◆ **Application form validation** — validation rules on the website application form so applications cannot be submitted incomplete.
- ◆ **Automatic intake and scoring engine** — applications flow from the website into SharePoint and are scored automatically against the agreed criteria, each with a clear breakdown.
- ◆ **Intelligent anonymisation** — AI-assisted removal of personal information, including indirect references in written narratives, with low-confidence cases flagged for review.
- ◆ **Trustee review portal** — an online portal where trustees view applications, drill into detail, and record decisions in one place.
- ◆ **Duplicate grant detection** — automatic checking of each application against previous grant payments in QuickBooks.

What is not included

- Procurement and ongoing cost of third-party licences and services (DocuSign, Power Automate Premium, AI Builder credits, Power BI Pro and Microsoft 365 licensing), which are arranged and funded by the Client.
- Build and configuration of the WordPress application form itself, which is carried out by the Client's website designer; the Consultant provides the specification and testing only.
- Day-to-day administration and processing of individual grant applications.
- Ongoing operation, monitoring, support or maintenance after handover, unless agreed separately in writing.

Milestones and timeline

MILESTONE	DESCRIPTION	BY
Kick-off	Project initiation meeting (complete)	4 July 2026
Phase 0 delivered	Power Platform environments and governance live (incl. rework)	28 August 2026
Phase 1 delivered	Acceptance letters and form validation live — subject to DocuSign being provisioned by the Client (target mid-September)	25 September 2026
Phase 2 delivered	Automatic intake and scoring engine live	16 October 2026
Phase 3 delivered	AI anonymisation and trustee review portal live	27 November 2026
Completion	Duplicate detection live; final deliverables accepted	11 December 2026

03 FEES AND PAYMENT

Fee and payment schedule

- ◆ Time-and-materials basis at €120 per hour (excl. VAT).
- ◆ Invoiced monthly in arrears for hours worked in the preceding calendar month.
- ◆ Payment due within 14 days of invoice date, in line with the Terms.

DESCRIPTION	RATE / AMOUNT (EXCL. VAT)	TOTAL
Phase 0 — Platform foundation and governance (incl. rework)	58 hrs @ €120/hr	€6,960
Phase 1 — Acceptance letters and form validation	54 hrs @ €120/hr	€6,480
Phase 2 — Automatic intake and scoring engine	54 hrs @ €120/hr	€6,480
Phase 3 — AI anonymisation and trustee review portal	100 hrs @ €120/hr	€12,000
Phase 4 — Duplicate grant detection	26 hrs @ €120/hr	€3,120
Total (excl. VAT)		€35,040

04 BUILD SERVICES AND WARRANTY

This is a Build & Implementation engagement. The Deliverables in section 02 are functional Deliverables governed by the Terms and Conditions Build & Implementation Services ("Build Terms"), incorporated by reference. Clause 2.5 of the General Terms (advisory Deliverables) does not apply to them. The following engagement-specific parameters apply under the Build Terms:

4.1 Agreed Specification (Build Terms B1). For each Deliverable the Agreed Specification is recorded in the Automation Solution Design, the Solution Architecture, the Work Breakdown Structure, and the phase acceptance record. Where these conflict, the most recently accepted version prevails.

4.2 Warranty Period (Build Terms B4). 60 calendar days from Acceptance of the phase in which each Deliverable is delivered. For the final phase, the Warranty Period runs until the later of 60 calendar days from Acceptance and the completion of two trustee board cycles in which the Client has used the Deliverables, and ends in any event no later than 150 calendar days from Acceptance of that phase. Hypercare is the ten business days immediately after each phase go-live.

4.3 Third-party platforms excluded (Build Terms B8). Microsoft 365, Power Platform, Dataverse, Power Automate, Power Apps and AI Builder, DocuSign, Intuit QuickBooks Online, and WordPress and its form plugin. The build and configuration of the WordPress application form is carried out by the Client's website designer; the Consultant warrants the specification and the test report only.

4.4 Operational runbooks (Build Terms B10). The Governance Runbook and the ALM Runbook.

4.5 AI-assisted anonymisation (Build Terms B9). Applies to the intelligent anonymisation described in section 02. The Client remains the data controller for applicant personal data and is responsible for reviewing flagged items before disclosure to trustees, for its Data Protection Impact Assessment and for its lawful basis for processing.

4.6 Liability caps (Build Terms B11). Per-phase cap: the Fees paid for that phase. Total cap: the total Fees paid under this Agreement. The phases are those listed in section 03.

IN PLAIN TERMS

Every phase carries a 60-day warranty from the date the Client accepts it, and the first ten working days after each go-live get priority attention. During that time the Consultant fixes anything that does not work as specified, at no charge. The final phase stays covered until the trustees have run two board cycles with it, so a holiday gap in meetings does not eat into the warranty.

The warranty covers what the Consultant built. It does not cover Microsoft, DocuSign, QuickBooks or the website form, it does not promise a particular time saving, and it does not promise that the anonymisation step removes every trace of personal data. The full detail is in the Terms and Conditions Build & Implementation Services.

05 CHARITY-SPECIFIC CONFIRMATIONS

5.1 The Client confirms that it has obtained all necessary trustee and internal approvals to enter into and perform this Service Agreement.

5.2 Where the Services are funded wholly or partly by a grant, the Client shall notify the Consultant of any conditions, restrictions or reporting requirements attached to that funding that may affect delivery.

5.3 The Consultant acknowledges the Client's charitable purpose and agrees to conduct the Services in a manner consistent with the Client's public benefit obligations and reputational responsibilities.

SIGNATURES

By signing below, both parties agree to be bound by this Service Agreement, the General Terms and Conditions of Consultancy Services, and the Terms and Conditions Build & Implementation Services referenced below.

THE CONSULTANT SIGNATURE NAME Xander Lykopoulos TITLE Principal Consultant DATE 08-09-2026	THE CLIENT SIGNATURE NAME Janine Tregelles TITLE CEO DATE
--	---

GOVERNED BY GENERAL TERMS & CONDITIONS AND BUILD & IMPLEMENTATION TERMS

This Service Agreement is subject to and incorporates by reference: (1) the General Terms and Conditions of Consultancy Services v1.3 (August 2026); and (2) the Terms and Conditions Build & Implementation Services v1.0 (August 2026), both issued by the Consultant. This is a build and implementation engagement, so the Build & Implementation Terms apply. In the event of conflict the order of precedence is: this Service Agreement, then the Terms and Conditions Build & Implementation Services, then the General Terms and Conditions. By signing, the Client confirms it has read and agrees to be bound by both sets of terms.
